

Coppélia Suspended Small

With a graceful sense of wonder, a beautiful mechanical doll appears to magically come to life in the famous ballet Coppelia. In the performance the ballerina traces, with sinuous movements, a delicate after-image in the air, which inspires the fluid motion in the design of Miyake's Coppelia Suspended Lamp.

Recommended dimmer specs

For fluent dimming behaviour we advise a dimmer that is compatible with the following specs:

Transformer type: Magnetic

Load type: Inductive load (L-Type)

Dimmer type: Leading edge / Forward phase

Please note the functioning of the dimmer and the power supply combination can never be predicted, it always needs to be tested in practice.
