Raimond Dome 79

Raimond Dome brings the poetry of a starry night to our homes, having a powerful lamp right at the centre of its dome-shaped network of twinkling LED lights.

Designer	Raimond Puts
Year of design	2012
Material	Stainless Steel 304 (indoor use, not resistant to marine conditions) and PMMA
Additional	high output central spot

detailing

The intricate spheres of Raimond transport the electrical current. The LED terminals then join these paths to create an atmospheric ambiance. The transparent lenses are specially detailed to spread warm white light in every direction.

Wideangle led spot

colour

Stainless steel

packaging

H 91CM | 35,8"

W 91CM | 35.8"

D 60CM | 23.6"

Colli 1/1

Product weight:

7KG | 15.4lb

With packaging:

9KG | 19.8lb

technical

**LED:**

power consumption 18W

colour temperature (degrees Kelvin, K)

2879K (warm white, comparable to incandescent)

colour rendering index

81.8

luminous flux (Lumen, lm)

620lm (60W incandescent)

Cable length 4M | 13.1ft (transparant) can be shortened down to 30cm | 11.8".

Recommended dimmer specs

For fluent dimming behaviour we advise a dimmer that is compatible with the following specs:

Transformer type: Electronic Low Voltage (ELV)

Load type: Capacitive load (C-Type)

Dimmer type: Trailing edge / Reverse phase

Please note the functioning of the dimmer and the power supply combination can never be predicted, it always needs to be tested in practice.

cleaning instructions

Can be effectively cleaned using a regular household dust cloth or feather duster. Lightly dust inbetween each component when the lamps are not in use. Moooi recommends always reading the label of any cleaning products you wish to use on or near any item from the Moooi collection. For further information on how to clean this product please contact your nearest Moooi agent or dealer which can be located through our website.

stainless steel

Stainless Steel 304 (indoor use, not resistant to marine conditions)

Stainless steel gets the "stainless" portion of its name from its chromium oxide coating that resists staining, pitting and rusting. But although it holds up better than other metals, stainless steel is not impervious to rust. Time and certain environmental conditions like salt air will slowly erode stainless steel's protective coating. When the chloride in the aerosolized salt in salt air lands on the surface of the stainless steel, it breaks down the chromium oxide.
