

# BERLIN LOFT

## Design by

Müller Wulff

## Description

Berlin Loft is a bed-settee which designers Thomas Müller and Jörg Wulff define as 'trendy' and 'casual'. It is perfect for a modern interior and will be, by turns, the place to sit, sleep, rest and do nothing. This settee resembles the city in which it was born in the imagination of the designers : Berlin. A simple, unabashed, practical and modern city. "The settee becomes the centre of our space, the platform for our lives, a cocoon of sweetness in such a bustling city."

## Technical Specifications

### CONSTRUCTION

Two mechanically-soldered metal frames linked by 3 articulated ratchet joints. The base is composed of 2 tubular metal feet which are screwed to the underframe - finish: satin anthracite grey lacquer.

### COMFORT

High resilience Bultex foam (36 kg/m<sup>3</sup> - 2.7 kPa, 38 kg/m<sup>3</sup> - 3.6 kPa, 42 kg/m<sup>3</sup> - 4.7 kPa).

Suspension on seat : elastic webbing on hooks. Suspension of back : elastic sheet stretched across frame.

The depth of the seat enables one to stretch out comfortably and is a real invitation to relax. Numerous cushions may be scattered on top - these may serve as armrests, lumbers or back cushions. There is even sufficient room for a favourite pillow. The rear section may be easily manipulated to find one's preferred angle of inclination between upright and the horizontal bed position.

Parallel sleep platform of size 141 x 201.

Cushions filled with polyester fibre.

- 2 cushions supplied as standard (A : 73 x 48, with overstitching ; B : 65 x 35, without overstitching)

- 2 optional cushions (C : 40 x 50, without overstitching ; D : 40 x 50, with overstitching).

### MAKING-UP

Overstitching on periphery. Cover quilted with 200g/m<sup>2</sup> polyester. Covers may be removed by a professional.
