

SOFTLY

Design by
Nick Rennie

Description

The Softly settees aspire to offer both a cosy, classically-inspired and very comfortable seating solution and an accessible price within the Ligne Roset collection. The initial concept is the bed, which is the clearest and simplest expression of absolute comfort. When deconstructed, it gives us mattress, pillows and cushions. From these basic elements, one must then reconstruct the settee: the enveloping back and armrests will be constructed from large vertical pillows placed on the ground, clearly demarcated by the elegant cleft/space which separates the armrests from the back in the two rear corners; the seat cushion will be evocative of a mattress, the idea of which will be reinforced by cushioning and bourrelet stitching to mark out the different seat places; finally, the multiple possible combinations of the three sizes of goose feather-filled lumbar and armrest cushion-reins (one small and one large square one and one rectangular one) clearly recalls the way in which decorative cushions are often arranged at the head of a bed.

Technical Specifications

CONSTRUCTION

Seat, back and armrests in panels of multi-ply clad in polyether foam. Black polypropylene feet.

COMFORT

Suspension of seat via elastic webbing (NB except bed-settee). Comfort of back via elastic webbing. Seat, back and armrest cushions in 3 different densities of high resilience polyurethane Bultex foam: 26 kg/m3 - 1.4 kPa (dominant), 38 kg/m3 - 3.6 kPa and 36 kg/m3 - 2.8 kPa. The bed-settee has no mechanism. A thick and comfortable parallel mattress of size 140 x 200 is created by simply opening out the seat cushion with the aid of a hinge made from technical fabric. An isolator concealed between the seat cushion and base should be placed on the ground to protect the cover of the seat as this rests on the ground once unfolded.

MAKING-UP

Covers quilted with 100 g/m² polyester. Bourrelet stitch detailing. Covers may be removed by an upholsterer. Set of 3 or 4 goose feather-filled (15 % down) lumbar or armrest cushions with removable covers, in 3 different sizes: large square (52 x 52 cm), small square (44 x 44 cm), rectangular (69 x 39 cm) - NB two rectangular cushions for the large settee.

COVERING MATERIALS

This is a single-colour settee. A second colour may be introduced by specifying a second covering material for the set of cushions.
