

# STRICTO SENSU

**Design by**  
Didier Gomez

**Description**

Didier Gomez wanted to design a model which offered the maximum comfort in the minimum of space, whilst losing nothing aesthetically-speaking. Several fireside chairs may be combined to form one long banquette.

**Technical Specifications**

**STRUCTURE**

A traditional structure (panels of particleboard and multi-ply around a metal frame), overlaid with polyether foam and polyester quilting. Armchair and fireside chair have steel-sprung suspension; settees have a suspended 'grille'. Choice of base : polished aluminium base or 4 feet in metal tubing (22 x 22 mm square section). For the version with 4 feet there is a choice of 2 heights (18 cm or 21 cm) and 2 finishes (Epoxy matt black lacquer or brilliant chrome).

**COMFORT**

Seat cushions in high resilience polyurethane Bultex foam (38kg/m³ - 3.6kPa), with a compartmented top layer of feathers. Back cushions filled with duck feathers. 3 back cushions should be specified for the small settee, and 4 for the large. All items have fully removable covers, except frame covers when in Alcantara or hide.

**FABRICS**

This model looks sensational in hide, but works equally well in fabric. Contrasting back cushions may be specified if desired. Seat is always in the same colour/fabric as the structure.
