

TESSA

Design by

Claudio Dondoli & Marco Pucci

Description

The design of the TESSA chair meets the improbable challenge of appearing both familiar and singular (in the sense of something never before seen). The impression of comfort given off by Tessa is also accentuated by the materials which have been selected for its upholstery : the fact that it is entirely covered in Alcantara, Diva, Divina or Kyoto is what confers on Tessa all its natural, warm and sensual character and accentuates the domestic dimension. Finally, its thickness - at once highly distinctive and reassuring - does not, surprisingly, prevent it from being light and easy to move.

Technical Specifications

CONSTRUCTION

Steel structure and base. Protective gliders.

COMFORT

High resilience polyurethane foam 60 kg/m³ - 7.5 kPa, moulded.

MAKING-UP

Simple-needle tailoring. The covers of this chair are not removable.
