

FIFTY

Design by

Dögg & Arnved Design Studio

Description

In 2013, the FIFTY armchair is complemented by a chair which shares the same aesthetic inspiration, the shape of which enables the sitter to rest their arms. Materials, colours and indoor/outdoor usage are exactly the same, including the optional addition of a seat/lumbar cushion to further augment the comfort.

Technical Specifications

CONSTRUCTION

Structure and base in anti-corrosion-treated steel, finished in anti-UV treated black polyester lacquer.

Protective gliders. May be used either indoors or outdoors.

COMFORT

Seat and back woven with mass-dyed, anti-UV treated polypropylene cord.

A seat/lumbar cushion made from 'Dry Feel' foam and held in place with black cords, is available as an option.

FABRICS

Structure in black lacquered steel with black or tobacco-coloured cord.
