

ALLEN

Design by
Piotr Mochniej

Description

The design and method of manufacture of the Allen table have been optimized in order to offer the public the best possible price for a solid wood table of this quality, made to measure to order.

The Allen table is a dining table with integral extension made entirely from solid wood. 3.3 cm thick top and 12 x 4 cm rectangular section legs. Offered in a choice of 4 wood species: European walnut, American walnut, natural oak and cherry (the same finishes as the Ashera low table). It is even possible to choose the length of one's table from between 140 cm and 220 cm (gradations of 10 cm), with 60 cm integral folding extension leaf in each case.
