

VILNA

Design by
Pagnon & Pelhaître

Description

A table of extremely pared-down lines comprising a top which is linked to the base by a large section frame with a plate to which the legs are attached. The top, which overhangs by around 12 cm, renders the structure barely visible. The designers present Vilna as an innovative table, a design object, with its overhanging top and sharp-looking metal base.

WOODEN TOPS : in 40 mm thick matt varnished solid European walnut or natural solid oak with streamlined edges, or in 12 mm thick through-stained smoked-effect oak veneered MDF.

CERAMIC STONEWARE TOPS : in 6 mm thick full body ceramic stoneware (metallic anthracite, white marble-effect, or white) glued onto a steel structure set 12 cm back from the edge of the top.

The rectangular tables L 200 / 220 / 240 are only available with fixed tops.

The rectangular table L 180 is available with a fixed or extending top (with 1 x integral 59 cm extension). " In the wooden versions (natural oak and walnut) the extension (W 59 cm) is matched to the top. The top and extension are in 25 mm thick solid wood ; the blocks from which they are comprised are arranged transversally to ensure continuity between the appearance of the top and that of the extension, and to ensure that the top of the extension and the tops of the two half tops sit flush with each other when the extension is in place.
