

FANCY CHIC

Design by
Frédéric Ruyant

Description

Low table with structure and base in copper-plated curved flat steel finished with an anti-oxidization treatment or in brilliant-chromed curved flat steel. Top finished in matt black soft curved flat steel. Top finished in matt black soft touch Fenix NTM laminate (a waterproof, anti-static and easily-maintained materials with a warm appearance, a silky feel and excellent resistance to scratches, abrasion, heat, light, stains, shocks, detergents and solvents). Fingers leave no mark whatsoever. Its antibacterial properties and resistance to scratching make it extremely appropriate for use on a table. Tiny scratches may even be repaired using an iron and a damp cloth.
