

CEMIA

Design by
Peter Maly

Description

Collection of double-sided stand-alone pieces characterised by a structure with 4 rounded corners: this (finished in natural walnut veneer or satin white lacquer) is composed of 2 sheets of moulded, arched multi-ply, linked along their edges (centre of panels) by a 3 mm cross joint highlighted by an aluminium-lacquered metal strip.
The curved lacquered zamac handles are set into the fronts of the doors or drawers.
