

Eames Soft Pad Group

Charles & Ray Eames, 1969

vitra.

The design of the Soft Pad Group dates from the year 1969. In terms of both construction and shape, the Soft Pad Chairs are similar to the design of the Aluminium Group. However, their sewn-on cushions create a striking contrast to the slender aluminium profiles. The Soft Pad Chairs are softer and more voluptuous than the chairs in the Aluminium Group, but without losing the clean clarity of their common silhouette. The chairs adapt to the body of the sitter and provide extraordinary comfort.

Vitra has produced the Soft Pad chairs in the same superior quality for decades. Because of this quality, we are able to grant a thirty-year warranty* on all products in the Aluminium Group.

The Soft Pad Group encompasses a variety of chairs which are suited for use in offices, public spaces and the home: the Soft Pad Chairs EA 205/207/208 provide soft comfort and a prestigious ambience in meeting and conference settings, while the Soft Pad Chair EA 222/223 is an exceptionally comfortable lounge chair. Mounted on a swivel base and available with backrests in various heights, the Soft Pad Chairs EA 217/219 complete the product group. Thanks to this wide range of models, a variety of bases with a polished, chrome-plated or black finish, and a choice of different types of leather upholstery in many colours, customers can find the perfect Soft Pad Chair for every interior.

*In order to receive the warranty extension, your product must belong to the Eames Aluminium Group and have been bought from a certified dealer after 1 September 2003. You must register it within three months of the date of purchase.

Materials

- In the standard version, the reverse side of the seat back is covered in Plano fabric. At additional cost, the reverse side is optionally available in the corresponding leather.

Charles & Ray Eames

Charles and Ray Eames are counted among the most important figures of twentieth-century design. Their work spans the fields of furniture design, filmmaking, photography and exhibition design. Vitra is the sole authorised manufacturer of Eames products for

Europe and the Middle East. When you own an Eames product made by Vitra, you know it is an original.

Leather Premium F Home/Office, L5o

Leather Premium F (contrast seam)/back panel Plano

The properties of Leather Premium F are equivalent to those of Leather Premium. However, Leather Premium F is processed with a tanning agent extracted from olive tree leaves (a waste product of the olive harvest), and the entire production process is carried out with the least hazardous chemicals in the smallest possible amounts.

This sustainably produced semi-aniline leather is available in a selection of 22 colours.

Material

Semi-aniline nappa leather with a very soft and supple feel, vegetable tanned
