	<b>FUNCTION</b>	Bed <input type="checkbox"/>	Electric motion <input type="checkbox"/>	Motion <input type="checkbox"/>	Recliner <input type="checkbox"/>	Sliding <input type="checkbox"/>
	<b>OPTIONS</b>	Nails <input type="checkbox"/>	Contrast Stitching <input type="checkbox"/>	Removable <input type="checkbox"/>		
	<b>WRINKLES &amp; VISUAL APPEARANCE</b>	Low <input checked="" type="checkbox"/>	Medium <input type="checkbox"/>	High <input type="checkbox"/>		

## WRINKLES & VISUAL APPEARANCE

Due to a combination of the elasticity of the covering, the nature of the interior construction and the design for comfortability of the product, the model may exhibit differing levels of wrinkles.

Low

Medium

High

The models need to be dressed on a regular basis to maintain their appearance and the wrinkles should not be considered as a manufacturing defect, but a natural characteristic of the product.

## NOTES

- In leather the model is available starting from cat. 25 (Status).
- Model is not available with article Misterbianco (cat. 30).
- Internal structure in molded polyurethane.  
Production process:
  - 1) Polyurethane resin shape.
  - 2) The mold is obtained from this shape
  - 3) Inside the mold there is a metal structure that acts as the backbone of the sofa.
  - 4) Afterwards the high-density polyurethane (50) is injected into the mold.
  - 5) After a specific period of time, this shape stiffens and becomes the body of the sofa.
  - 6) This structure is bonded with a layer of transformed lower density polyurethane to give softness to the seat, to the back and armrests.
  - 7) Everything is covered with dacron, leather or fabric.
  - 8) The end result is a comfort, design and support unchanged over time
- The hidden metal feet with anti-scratch and non-slip rubbers offer a practical solution for protecting floors.
