TECHNICAL INFORMATION

Designer: Nina Zupanc

TIDE bookcase has a strong aesthetic impact that draws inspiration from nature and the various shapes and interpretations of water. The sea represents a changing mood in continuous movement that is demonstrated in the design of the project. A small bookcase capable of giving dynamism to any environment and embellishing it as a work of art.

The project is designed with modules that can be used both individually and by aggregation, providing numerous configuration options. A product that's curved lines create plays of light and with its modularity it adapts to all living spaces.

PRODUCT DETAILS:

Modular bookcase with elements available in two sizes that can be superimposed and combined with each other to create different compositions. A laser cut curved steel sheet that is polished and Interpon powder coated with a smooth, matte gold colored finish. The special painting finish represents a protective and decorative coating that guarantees high scratch resistance, exceptional durability, and easy cleaning.

Structure completely assembled with 3mm thick painted steel shelves. The structure is not free standing but is equipped with a wall hooking system to ensure greater stability and anti-tipping safety. The small module can be hooked to the wall and placed alongside other elements of the same version to create suspended compositions in line with the latest furnishing trends.
