## SCHEMATICS

### SQUARE ACCENT

46cm x 55cm H 41cm  
18,11" x 21,65" H 16,14"

### RECTANGULAR CORNER

44cm x 94cm H 40cm  
17,32" x 37,01" H 15,75"

## FINISHINGS

### Frame finishing

BRONZE

### Top finishing

NATURAL

GLOSSY SAND

## TECHNICAL INFORMATION

---

Designer: Mauro Lipparini

IKA is a complete coffee table program with an organic, simple design. Designed to ensure functionality and space saving needs to be in line with new housing necessities. The collection draws on soft, organic forms drawing inspiration from river pebbles.

The tables often catch the eye in the living room, in the lounge areas, and in many other situations becoming the central focus of the environment. They are useful for placing a handbag, a cup of tea, a tablet, or notes. They give style and personality to various environments.

IKA elements can be used individually or combined to create various compositions. The simple design makes them extremely versatile, and the refinement of the details and the variety of materials differentiates them by shape and style.

### PRODUCT DETAILS:

The base of the coffee tables are turned, polished, and powder-coated tubular steel with a smooth Bronze-colored texture. The special painting based on polyester resins without pigments and additives has an excellent durability and guarantees excellent preservation of the brightness and color stability. The base of the project is personalized in design by a decorative foot in black ABS non-slip and non-marking plastic.

Tops made of sectioned MDF with a beveled edge that is veneered in natural oak with running flame, or lacquered with polyurethane gloss in various colors from the samples page. The polyurethane lacquer composed of resin perfectly covers the surface, giving it the same thickness, impact resistance, homogeneity, and flatness to the surfaces.

Depending on the final effect to be obtained (opaque or glossy), various brushing and sanding steps are performed. An excellent result is obtained with a unique appearance. Top has a beveled, rounded edge.

The Accent version with a lacquered top is equipped with a mechanism that allows you to adjust the height in different positions to better adapt to your space.
