TECHNICAL INFORMATION

Designer: Silvia Fanticelli

Like light rays refracted through a glass window, the lines engraved on the Luce rug alternate the silky brilliance of tencel® and the opaque sharpness of the wool for a softly rounded design on one side. Luce rug is handmade in India with the hand tufted technique and with the delicacy of the carving work that underlines the light beams in color geometries.

Materials: 65% Woll 35% Tencel®

Technic: Hand-tufted
