BLACK

TECHNICAL INFORMATION

TECHNICS & MATERIALS

Handloomed

50% wool felter %0% brilliant polyester

Both in traditional and contemporary design, rugs are decorative elements that highlight the space in which they are placed, while also contributing - through their textures and patterns - to the creation of an almost independent space, like a world of its own. Kura finds its strength in the materic texture, the result of the combination of polyester and wool felt. The unique weaving used for the rug forms an elegant 3d relief on the surface which gives the room the utmost coziness and warmth. Available in Cream, Light and Dark Grey and Black.
