TECHNICAL INFORMATION

A striking, elliptical-shaped table made entirely of solid wood by expert craftsmen.

Monument table is at the same time a functional furniture piece and a bold sculpture that elevates any space with its simple yet striking presence. Handcrafted from sustainably-sourced wood, the table is both durable and monumental, designed and crafted to withstand the test of time.

The uniquely shaped top and legs positioned under different angles make the table look completely different from every angle you look at it.

MATERIALS:

Table with top and base made of solid European walnut wood treated with oil finish to preserve its natural beauty.

Due to its natural grain and colors, each piece is to be considered unique.

Wood can change color when exposed to sunlight. Wood being a natural material can react to changing humidity.

NOTES
