- Dimensions** *Barrel-shaped top 160X98 - 180X98  
Round top diameter 120*

*Pod is an elegant and contemporary table that combines, in a fascinating contrast, the warm and solid nature of wood with the ethereal and modern one of glass. Indeed, the solid wood structure offers a distinctive solidity and robustness to the light, transparent or smoky grey glass tops, which in turn allow you to appreciate the refined craftsmanship of the wood, finely bevelled and polished to achieve surfaces and sections that enhance the beauty of its grain. The tapered legs provide dynamism and lightness and the organic connection between these, and the crosspiece is a distinctive detail.*
