Domus

Introducing the new Domus sofa, inspired by the heart of daily life in ancient Roman households and designed by our Natuzzi Design Centre. This elegant and comfortable design offers both recliner and non-recliner options. The intuitive recliner mechanism allows you to easily adjust the headrest and footrest for optimal comfort. The zero gravity function elevates your feet to the same height as your heart, promoting better blood circulation and complete relaxation. The Domus sofa also comes with a 45-degree corner option, in-between seat consoles, and table tops with storage compartments, making it a versatile and stylish addition to any living space.

Design by Antonella Digirolamo

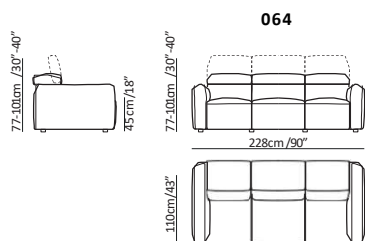

After her studies at the Italian Academy of Fine Arts and with decades of experience at the Natuzzi Design Center, Antonia Digirolamo expresses her creativity through projects that embody comfort and heritage, naturally embracing the Comfortness philosophy, which is rapidly emerging as a distinctive value for all our customers.

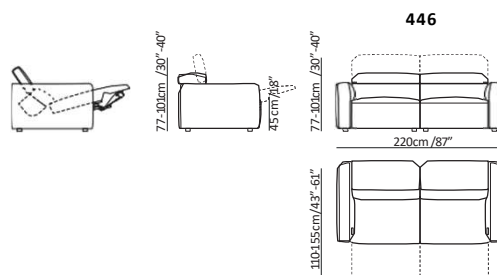

Choose your Domus

The Domus project is extremely versatile, thanks to its 19 SKUs, which allow for unlimited configurations suitable for any space, from retail stores to the homes of our customers.

Thanks to the configurator, this versatility can be customized according to the client's needs.

Technical features

Each power motion recliner is equipped with advanced and intuitive dual-motion technology, ensuring every detail is designed to provide full-body rest and relaxation.

Dual power motion technology

Electric and manual headrest

Zero Gravity for whole body extension

Also available without recliners

Integrated multifunctional tables

Leather and Fabric (with contrast piping)

Battery available for selected versions

Multiple configurations with 45 degree corner

2 seat widths available

The “Zero Gravity” position is achieved through the triple-motion function, which elevates the feet to heart level, enhancing circulation and providing an optimal relaxation position.

The Domus Sofa is complemented by versatile table tops (vers. 820, 821, 823) in smoked oak (ST32), ash grey oak (ST23), and walnut finish (ST39). Available in rectangular and trapezoidal shapes, with options for drawer storage, they can be integrated between seats or at the end of an armless sofa composition.

The dual motor recliner mechanism is intuitive, with front buttons to open the headrest and footrest simultaneously. Inner buttons allow individual control of the headrest for better comfort while watching TV, reading, or relaxing. The non-power motion recliner versions feature a manual adjustable headrest for added convenience.

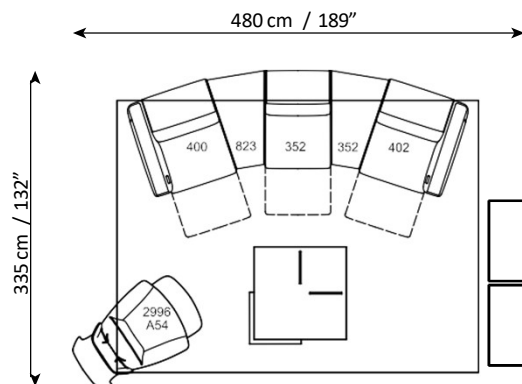

The Domus sofa in fabric features a contrast leather piping. The contrast leather piping is available in CAT 15 Le Mans, CAT 30 Stromboli, and CAT 40 Siena, offering a stylish and customizable option.

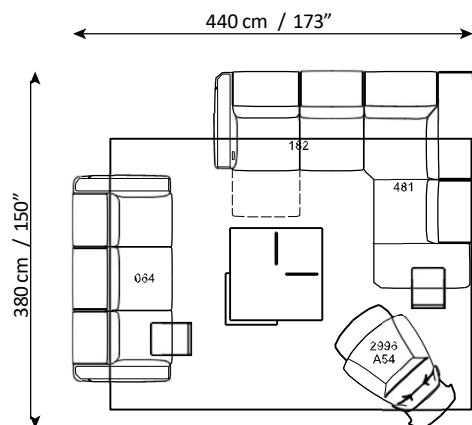

Layout Examples

It is also possible to express the versatility of the project through different layouts, suggesting the creation of various room sets to show the optimization of spaces in any living area.

Moodboard warm neutral

To ensure harmony in the projects, the Natuzzi Style Center carefully selects materials and coverings, creating a dialogue between them. In this case, Status leather in Greige has been paired with Aventino fabric in Off White. The harmonization of these coverings with woods and marbles will result in a moodboard that defines the final total look of the project. Each collection model offers multiple moodboards to adapt to various market geographies.

Moodboard warm neutral

Along with the moodboard of coverings and materials, the Natuzzi Style Center harmonizes the living room with furniture and accessories to complete the interior design project.
