TECHNICAL INFORMATION

Date of launch: 2024.

Roll arises from the idea of offering a project that combines functionality and design. Coffee table with extendable tops and storage compartments as the perfect solution to store and organize objects. The height is designed to allow us to have everything within reach and to work and relax in our living room in absolute comfort.

MATERIALS AND VERSATILITY

Multifunctional central coffee table, with upper top with cantilever extraction. Structure made of shaped Medium Density Fiberboard with solid wood edge details. Completely veneered in new Graphite Oak finish. Matte graphite lacquered interiors.

The coffee table is equipped with a fully extendable storage drawer with engraved handle. The functionality of the coffee table is enhanced by 2 side storage compartments. The opening of the upper storage compartment allows for the use of an additional support surface, useful for various purposes. Coffee table equipped with swivel wheels that allow easy movement of the product to serve the living area.

NOTES
