

DIMENSIONS

TECHNICAL DESCRIPTION

EN Thanks to a particular bronzo finishing aluminium structure and the special gluing technology used for the panes, the reflective glass doors exclude visible screws or joints. The key locking system has also been specially designed. Inside, the walnut drawers with synthetic leather-covered bottoms feature the traditional "dovetail" construction, equipped with partial opening and soft-closing mechanism and suspended on an invisible internal structure.

IT Le ante in vetro riflettente che, grazie ad una particolare struttura in alluminio finitura bronzo ed una speciale tecnologia d'incollaggio delle lastre, escludono la presenza di antiestetiche viti o giunzioni a vista. Appositamente studiato anche il sistema di chiusura a chiave. All'interno i cassetti in essenza di noce e con il fondo rivestito in similpelle sono caratterizzati dalla tradizionale costruzione "a coda di rondine", dotati di apertura parziale con rientro ammortizzato e sospesi su una invisibile struttura interna.

DE Die Türblätter aus spiegelndem Glas weisen dank einer speziellen Bronzo Aluminiumstruktur und einer besonderen Klebetechnik der Scheiben keine unansehnlichen Schrauben oder sichtbaren Fugen auf. Auch das Schlüsselverriegelungssystem wurde speziell für das Möbelstück konzipiert. Im Inneren zeichnen sich die Schubladen aus Nussbaumholz und deren mit Kunstleder bezogenen Böden durch die traditionelle „Schwalbenschwanz“-Konstruktion aus, die mit einer teilweisen Öffnung mit gedämpfter Rückführung ausgestattet ist und an einer unsichtbaren Innenstruktur aufgehängt ist.

FR Grâce à leur structure spécifique en aluminium finition bronzo et à la technologie spéciale de collage des feuilles, les portes en verre réfléchissant se passent de vis disgracieuses ou de joints visibles. Le système de verrouillage à clé a lui aussi été spécialement conçu. À l'intérieur, les tiroirs en essence de noyer et dont le fond est recouvert de similicuir, se caractérisent par leur construction traditionnelle en "queue d'aronde", et sont dotés d'une ouverture partielle avec retour amorti, et suspendus à une structure interne invisible.

ES Las puertas de cristal reflectante que, gracias a una particular estructura de aluminio con acabado bronzo y a una tecnología especial de pegado de láminas, evita la presencia de los antiestéticos tornillos o juntas visibles. El sistema de bloqueo con llave también ha sido especialmente diseñado. En el interior, los cajones de madera de nogal con el fondo revestido en simil cuero se caracterizan por la tradicional construcción en "cola de milano", dotados de apertura parcial con retorno amortiguado y suspendidos sobre una estructura interna invisible.

RU Стекланные двери с отражающим эффектом, которые благодаря специальной алюминиевой конструкции с отделкой под бронзу особой технологии склеивания стекол исключают возможность использования неприглядных винтов или видимых стыков. Также был специально разработан замок с КлючОм. Внутри ящики из орехового дерева с дном, обтянутым Эко-кожей, отличаются традиционной конструкцией «ласточкин хвост» и оснащены частичным открыванием с амортизацией и подвешены на невидимой внутренней конструкции.

汉语 以反光玻璃制成的门扇，搭配经黄铜表面处理的独特铝合金框架，采用特殊的玻璃板粘合技术，避免不美观的螺钉以及明显接缝。 附带钥匙的门锁系统亦经特别设计。 抽屉内部以胡桃木打造，底层包覆人工皮革，“燕尾榫”的传统工艺结构尤为特色。抽屉悬于柜体内部隐形结构，部分设有软关闭功能。
