

LOLLIPOP

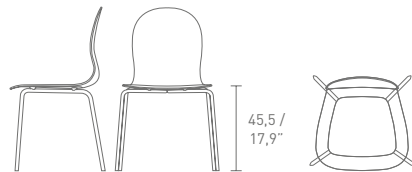

design: Archirivolto

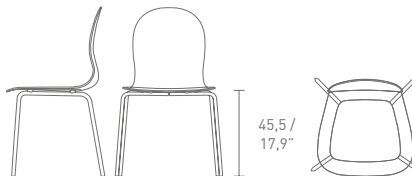

Sedia impilabile. Struttura in tubo estruso di alluminio anodizzato lucido o verniciato, in tubo di acciaio cromato o verniciato o in tondino di acciaio cromato o verniciato. La scocca, realizzata in materiale plastico Polimero "San" con l'esclusiva tecnica di bi-iniezione, può essere trasparente o coprente con finitura lucida.

Stacking chair. Frame in extruded anodized aluminium, polished or painted, in chrome-plated or painted steel tube or in chrome-plated or painted steel wire. The shell is made of Polymer "San" plastic using an exclusive bi-injection technique, and may either be transparent or with glossy finish.
