WHERE — RODOLFO DORDONI 2008

1—
3

Elegant and designed to be contemporary classics, the Where tables have a wood trapezium structure. The rectangular tops are available in fixed version, and like the round tops in various sizes, are very thick. The top surfaces in wood, glass or marble make them even more functional. The different marble slabs that make up the tables are not the same and have variations in tone, grain, and fossil intrusions to guarantee that the marble is natural.
