

GRANDE LUNATIQUE

Design by
Inga Sempé

Description

A multifunctional, height-adjustable, 'urban' table, Grande Lunatique brings an elegant solution to small apartments.

Oval low/dining table with top in 22 mm thick lacquered laminated fibreboard; base and metallic stem finished in Epoxy lacquer to match top. The base/stem is a sliding profile which renders the height of the table freely variable between 50 cm and 75 cm. This movement is assisted by a jack operated by an articulated ring set into the centre of the top.
