

CLYDE

Design by
Numéro111

Description

CONCEPT: The Clyde double-topped low table harmoniously brings together no less than 3 materials in an entirely contemporary fashion : the structure is in steel (in a brass-plated or black lacquered finish) whilst the upper top in smoked glass allows the opaque lower top in white marble-effect or gloss black marble-effect ceramic stoneware to be seen beneath it. Altogether, the piece speaks of softness and lightness thanks to the finesse of its steel structure, the transparency of the upper top and the rounded corners of both tops.

QUALITY OF MANUFACTURE: Structure in matt varnished brass-plated or black lacquered steel. Upper top in 8 mm thick smoke grey toughened glass. Lower top in 6 mm thick white marble-effect or gloss black marble-effect full body ceramic stoneware, glued onto a support panel.
