Ombra

A fluid and elegant sculpture, with a refined design. It has an asymmetrical supporting leg and metal base that simulates the reflection of its upper shadow. It completely reveals the nature of what it represents: “a welcoming table that apparently levitates above a solid inorganic base.” A blend of natural and industrial materials, which come together in a unique product that evokes a minimalist but relaxed design.

Design by Claudio Bellini

Claudio Bellini is an architect, designer, and art director. In 1996, he founded his studio in Milan. His approach to design, attentive to the needs of a growing global market, is based on the centrality of harmony, beauty, and efficiency.

Versatile Beauty

The Ombra table is a perfect example of versatility and innovative design. Ombra easily adapts to different environments, from modern to classic. Its ability to harmoniously integrate into any context, whether it be an elegant living room, a minimalist studio, or a refined conference room, makes it an ideal choice for those seeking a design piece that can elevate the aesthetics of any space.

Technical Features

The Ombra table is not only a masterpiece of design but also an example of technical excellence. Every detail has been carefully designed to ensure stability, durability, and aesthetics.

Quality and Durability

Table with a pewter-painted steel base (8mm) designed to ensure stability. The asymmetrical legs are painted and troweled by hand using Bio Malta.

Shaped Top

The wood top, processed with a pantograph, has a tobacco ashwood finish featuring natural grain brushed with alternating full flame. This design makes the top suitable for refined environments. The wooden top is supported by a shaped and painted metal undertop connected to the leg with an internal metal core.

Refined and Innovative Materials

Wood, being a natural raw material, exhibits variations in color and structure. Over time, it may experience color changes. Bio Malta is a bio-compatible and eco-sustainable finish, made from materials such as quartz, terracotta dust, marble, and mother of pearl. The application of Bio Malta is done manually.

Made in Italy Production

The “Made in Italy” label symbolizes quality and craftsmanship, enhancing the product’s appeal in the international market and attracting clients who value Italian manufacturing excellence.

Technical Features

Research and Innovation

In the Ombra Project, the integration of Bio-Malta and tobacco ash wood creates a perfect balance between innovation and tradition, offering an elegant and sustainable solution for modern environments.

BIO MALTA LIGHT GREY

Material Innovation

Bio - Malta is a coating made from an aqueous emulsion with a mix of natural materials including quartz, terracotta powder, marble, and mother of pearl, with a thickness of about 2mm. It is a bio-compatible and eco-sustainable finish that is odorless, non-toxic, stain-proof, non-slip, and easy to maintain.

Artisanal Application

The application of these materials is performed manually. The resulting product features distinct markings that make each piece unique. Bio-Malta is BPA-free and composed of selected raw materials, ensuring that the coating does not experience aesthetic or chromatic variations.

TOBACCO ASH WOOD

Natural Elegance and Unique Character

Ash wood represents a premium choice for high-quality furnishings. The natural grains and knots within its structure are not defects but intrinsic characteristics that confer uniqueness and authenticity to each piece.

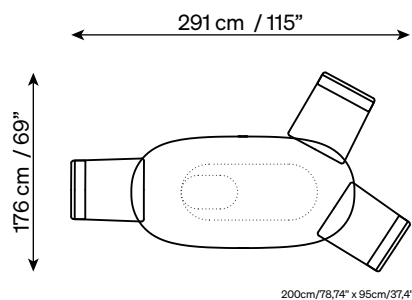

The depth effect of ash wood is the result of reflected light, giving the wood a fascinating three-dimensionality. This wood not only adds a touch of natural elegance to environments but also ensures durability and strength.
