WRINKLES & VISUAL APPEARANCE

Due to a combination of the elasticity of the covering, the nature of the interior construction and the design for comfortability of the product, the model may exhibit differing levels of wrinkles.

The models need to be dressed on a regular basis to maintain their appearance and the wrinkles should not be considered as a manufacturing defect, but a natural characteristic of the product.

NOTES

- In leather, to avoid cuts on the seat and back cushions, the model is available starting from cat. 15; only in article LE MANS
- Model is not available with article Misterbianco (cat. 30).
- Step 1: Pulling the handle between the seat cushions activates the hidden sliding mechanism that transforms the sofa into a bed.

When the sofa is in leather, the handle is in the same leather covering of the sofa.  
When the sofa is in fabric, the handle can be in fabric (in the same covering) or in leather (picking from Le Mans or Status color palette).

- Step 2: After step 1, the back cushion can be flipped over manually supported by a gas piston mechanism.  
With the back cushion flipped over, the sofa is transformed into a bed.  
A mattress topper improves the comfort.
- Version 008 also includes one armrest/cushion. Removable armrest that also acts as a cushion in the bed version. With version 108, one extra armrest/cushion can be ordered.
- Wooden base in natural ash wood (54) or black ash wood (51).
