Nodo

Nodo represents a new vision of the dining table, establishing itself as an icon of the modern living area. This project is an evolution between design and functionality that expands our range of offerings available today. Nodo features a modern design and a smart blend of materials, available in unique finishes. This versatile and functional table can adapt to various environments and meet different consumer needs, in line with the latest furnishing trends.

Design by Andrea Lucatello

Andrea Lucatello founded his studio in 1996 and began experimenting with new forms using heterogeneous materials. He combines Murano glass with precious metals for original lamps and uses composite materials from vintage boat restorations for tables and chairs. His avant-garde projects are inspired by nature, characterized by elegant shapes, attention to detail, and the harmonious use of different materials

Versatile Beauty

Designed By Andrea Lucatello

This table, characterized by versatility and functionality, is designed to fit a variety of environments and meet different consumer needs, in accordance with current trends in the furniture sector.

Technical features

Contemporary design uses different materials to add elegance and personality. The Nodo table combines a metal base with a fine wood top, enhancing the natural beauty of the materials and ensuring robustness and versatility.

Superior Quality

The combination of high-quality materials and advanced processing techniques ensures a durable product with great aesthetic value.

Durability and Sophisticated Appearance

The central base is made of curved steel sheet, lasercut, polished, and powder-coated with Interpon with a smooth, matte gold finish. This gives a refined look that enhances its perceived value.

Shaped Top The pantograph-processed wood features a tobacco ashwood finish with natural grain brushed with alternating full flame. The elegant aesthetics make the top ideal for refined environments.

Practicality

The edge of the top is rounded to ensure safety and a soft touch, highlighting a design perfect for family environments.

Functionality

The base is equipped with adjustable feet to protect surfaces and easily adapt to different needs.

Made in Italy

The “Made in Italy” label symbolizes quality and craftsmanship, increasing the product’s appeal in the international market and attracting clients who appreciate Italian manufacturing excellence.

Versatile Beauty

Its structure allows it to harmoniously integrate into both modern and traditional interior styles. The rounded sides give a sense of fluidity and movement, while the raised edge of the top adds a touch of sophistication. The versatility of this sideboard allows to adapt to the practical needs of users: it can be used as a storage unit, an art display cabinet, or a practical furniture piece for storing everyday accessories.

Technical features

The Nodo sideboard is an example of contemporary design that combines aesthetics and functionality. Carefully crafted, this sideboard merges art and practicality, making it suitable for various home environments.

Elegant and Modern Design:

The Nodo sideboard stands out for its contemporary and sophisticated design, which fits perfectly into any environment.

Quality and Durability

The Nodo sideboard is a masterpiece of design and technology, made with a curved multilayer structure in essence, shaped and machined by pantograph with numerically controlled technology. This process ensures exceptional precision and quality, giving the furniture superior robustness and durability.

Additional Functionality

The internal accessory drawer and the glossy ceramic top add functionality without compromising aesthetics, making the sideboard a practical and versatile choice. The ceramic top is resistant and easy to clean, making it ideal for daily use.

Safety and Comfort

Rounded edges and the soft-close system of the doors improve safety and comfort, making the sideboard ideal for families with children. The doors with edge details in solid wood are equipped with a soft-close system that prevents bumps and noises, enhancing the user experience.

Made in Italy

The Nodo sideboard represents the excellence of Italian design and craftsmanship, an added value that attracts customers looking for high-quality and stylish products.

Technical features

The Nodo Dining Chair is a masterpiece of design that evokes the elegance and refined style of the 1950s. A unique piece that enhances any space, reflecting good taste and attention to details.

High-quality materials ensure long-lasting durability

Moodboard Warm Neutral

To achieve harmony in every project, the Natuzzi Style Center carefully selects materials and coverings. In this case, Smoked Oak wood and Breccia Capraia Ceramic has been paired with Status Leather in Skin tone. The harmonization of these coverings with woods and innovative materials will create the moodboard that defines the overall final look of the project. Each model in the collection is presented with multiple moodboards to suit all market geographies.

Moodboard Warm Neutral

Every element is carefully chosen to create a coherent and refined environment, where every detail contributes to a unique aesthetic and functional experience.
