Project Identity

Natuzzi Editions

The Project Identity purpose is to offer a unique working method that guarantees chromatic and stylistic conformity and preserves the Brand's DNA.

This tool represents a guide that goes beyond the offer of a product, aiming at the creation of a real project from the stores to the customers' homes.

Puzzle

Who has never put a puzzle together? The namesake sofa comes to life in the same way - by combining one element after another, everyone can have fun composing their own Puzzle, even "reverse seating" configurations that allow it to be experienced from both sides at the same time. The seats are in fact finished on all sides, as "free standing" elements, and available in two different sizes - and so are the armrests, one high and slim, one low and large, which can be both used on each side of the sofa thanks to a universal connector. The same goes for the ottomans which are suitable as terminal elements or in the middle of the seats. Each seat is also paired with a loose back cushion in same cover, so that comfort always lives up to the Natuzzi name. Available in a wide choice of fabrics to combine with each other.

Design by Natuzzi Design Center

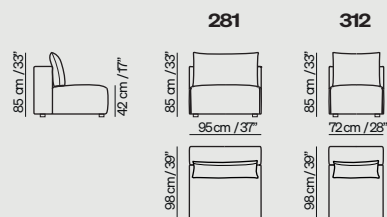

In the Natuzzi Headquarter in Puglia, the Design Center preserves the balance between design and functionality, values rooted in the brand's DNA.

Moodboard warm neutral

The Natuzzi Style Center carefully selects materials and coverings, putting them in dialogue with each other. In this case, the Leisure leather in the Alder color was paired with the fabric Jupiter in the White color. The combination of these coverings together with the wood, will give rise to the moodboard that will create the final total look of the project. Each model in the collection is presented with multiple moodboards to adapt to homes all over the world.
