- Mech. 1: All in One Power Reclining mechanism simultaneously reclines the back and seat and footrest that allows you to reach a horizontal position for unlimited relaxation.
- Mech. 2: Power Lumbar Support allows you to adjust the lower part of the backrest by increasing or decreasing the pressure for a better back support.
- Mech. 3: Power Adjustable Headrest which allows you to recline the headrest forward with millimetric precision and reach a perfect relaxation position for great comfort.
- «Micromobility» Starting from the resting position, the sofa moves imperceptibly to keep the body’s muscles active. It works by slowly tilting the seat and footrest simultaneously with micromovements that improve blood circulation, contributing to a deeper state of relaxation.
