

DONOVAN

DESIGN RODOLFO DORDONI

Struttura: in legno massello con molleggio garantito da cinghie elastiche ad alta componente di caucciù.

Preparazione della struttura: imbottitura seduta realizzata con differenti quote di poliuretani ad alta resilienza, aggregati tra loro in modo da ottenere un confort anatomico, differenziato e di lunga durata. Tutta la struttura, infine, è rivestita con trapuntino in piuma d'oca canalizzata che conferisce morbidezza dando al blocco seduta l'aspetto di un unico accogliente grande cuscino.

Cuscinatura: cuscini schienale completamente imbottiti in piuma d'oca canalizzata.

Piedini: appoggio a terra tramite piedini in metallo, Ø 25 mm, con finitura Black-Nickel lucido e scivolante protettivo in nylon.

Sfoderabilità: cuscini schienale e struttura completamente sfoderabili in tessuto o pelle.

N.B.: il panchetto 83x83 cm, data la corrispondenza con la profondità di seduta del sistema Donovan, è indicato per essere aggregato agli elementi penisola senza bracciolo, lato penisola. Il panchetto 103x103 cm, data la sua corrispondenza con la profondità totale del modello, è indicato per essere aggregato agli elementi penisola senza bracciolo, lato schienale.

Structure: solid wood frame let into elastic straps with a high rubber content.

Structure preparation: seat padding with high-resiliency polyurethane foam in different densities, that has been aggregated for anatomical, differentiated and long-lasting comfort. All the frame has a channeled goose down padding to enhance softness and make the seating appear like a big inviting cushion.

Cushions: channeled goose down filling for the backrest cushions.

Feet: metal, Ø 25 mm, glossy Black-Nickel finish. Protective nylon glides.

Covers: fully removable fabric and leather covers for the backrest cushions and frame.

N.B.: the 83x83 cm bench has the same depth as the seat and can be linked to the sections without an armrest on the peninsula side. The 103x103 cm bench corresponds to the total depth of the model and can be linked to the sections without armrests, at the back.

Gestell: Massivholz, Federung garantiert mit elastischen Riemen mit hohem Kautschukanteil.

Aufbereitung des Gestells: Sitzkissenpolsterung mit unterschiedlich dickem, hochelastischem Polyurethan, untereinander so kombiniert, dass der anatomische Komfort differenziert und auf Langzeitdauer garantiert ist. Die gesamte Struktur ist mit kanalisiert belüftetem Stepp bezogen, der die Sitzfläche einladend weich macht und sie wie ein einziges großes Kissen erscheinen lässt.

Kissen: Die Rückenlehnenkissen sind mit kanalisiert belüfteter Daunenfüllung ausgestattet.

Füße: Black-Nickel-farbig, hochglanzlackierte Metallfüße mit 25 mm Ø mit Bodenauflage aus gleitfähigem Nylon-schutz.

Abziehbarkeit: Stoff- oder Lederbezug der Rückenlehnenkissen und Struktur vollkommen abziehbar.

N.B.: Die Sitzbank im Format von 83x83 cm eignet sich, aufgrund der gleichen Sitztiefe, zur Kombination mit den Halbinselementen ohne Armlehne, an der Seite der Halbinsel. Die Sitzbank im Format von 103x103 cm eignet sich, da sie der Gesamttiefe des Modells entspricht, zur Kombination mit den Halbinselementen ohne Armlehne, auf der Rückenlehenseite.

Structure : en bois massif, suspension garantie par des courroies élastiques à teneur élevée en caoutchouc.

Préparation de la structure : rembourrage de l'assise réalisé avec différentes hauteurs de polyuréthanes à haute résilience, unies de façon à obtenir un confort anatomique, différencié et de longue durée. Enfin, toute la structure est recouverte d'une petite couette en plume d'oie canalisée pour plus de souplesse, donnant au bloc assise l'aspect d'un unique grand coussin accueillant.

Coussins : coussins et dossier entièrement rembourrés en plume d'oie canalisée.

Pieds : pieds d'appui au sol en métal Ø 25 mm, finition Black-Nickel brillant. Patins de protection en nylon.

Déhoussage : coussins, dossier et structure complètement déhoussables qu'ils soient en tissu ou en cuir.

N.B. : pour sa correspondance avec la profondeur de l'assise, le banc de 83x83 cm est indiqué pour être uni aux éléments péninsule sans accoudoir, côté péninsule. Pour sa correspondance avec la profondeur totale du modèle, le banc de 103x103 cm est indiqué pour être uni aux éléments péninsule sans accoudoir, côté dossier.
